COMPILED AND PUBLISHED BY

THE BLUFFTON BANNER

AUGUST 1, 1908

1921422

# INTRODUCTORY

In presenting this, the first issue of our complete Wells County Directory, we feel assured that the work has been compiled and arranged in such a careful and thorough manner as to be accorded the commendation of all, and that it will prove an almost indispensable volume to private citizens, as well as to the business and professional men.

We appreciate the impossibility of entirely eliminating all inaccuracies, but have spared no pains to secure the fullest and most accurate information in the compiliation of this book.

The patronage and support extended us, as well as the courtesies shown our solicitors, are heartily appreciated.

THE BLUFFTON BANNER,
Publisher.

# STREET DIRECTORY

## SYSTEM OF NUMBERING HOUSES.

The system of numbering is what is known as the Philadelphia system, which establishes base lines, running east and west and north and south, and all houses are numbered in the several directions from these base lines, each block containing one hundred in numbering in any direction.

We take first Main street, running north and south, as a base line for numbering east and west, and Market street, running east and west, as a base line for numbering north and south.

All points east of Main street, on any of the several streets are known as east, and all points west of Main are known as west; any point north of Market street on the several streets is known as north, and any point south of Market street on any of the several streets, is known as south, regardless of whatever the number may be on any of the several streets. For instance, the Baptist church is located at the corner of South Johnson and West Cherry streets. Even numbers are placed on the south side and odd numbers on the north side of the east and west streets, and even numbers are placed on the west and odd numbers on the east side of the north streets and south streets.

Taking the public square as the basing point, the streets of the city are located from this point.

Arnold street is seven squares south of Market, and extends from Main east to city limits.

Bennett street is two squares east of Main, and extends from north to south limits.

Beth avenue is twelve squares west of main and extends from north to south limits of Tribolet & Dougherty's addition.

Baldwin street is nine squares west of Main and extends from north to south limits.

Bond street is ten squares west of Main and extends from north to south limits.

Cherry street is two squares south of Market, and extends from east to west limits.

Central avenue is four squares south of Market, and extends from Oak to east limits.

Drummond street is two and one-half squares north of Market, and extends from the L. E. & W. railroad, east to Morgan.

Dougherty street is eleven squares west of Main and extends from south limits to north line of Tribolet & Dougherty's addition, from which place it continues as Walmer street to Washington.

Elm street is one and one-half squares south of Market, and extends from east limits to Marion.

Hall street is four squares north of Market and extends from L. E. & W. railroad east to Wabash river.

Hale street is five squares north of Market and extends from L. E. & W. railroad east to Wabash river.

Horton street is ten squares south of Market, and extends from Johnson to east limits.

Indiana street is seven squares west of Main and extends from Wabash to south limits.

Jefferson street is two squares south of Tribolet street.

Johnson street is one square west of Main and extends from north limits to Horton.

Jersey street is six squares west of Main and extends from Washington to south limits.

Lancaster street is three squares north of Market and extends from L. E. & W. railroad east to Wabash river.

Liberty street is four squares east of Main and extends from north to south limits.

Marion street is two squares west of Main and extends from north to south limits.

Market street extends from east to west limits running along north side of public square. It is the dividing street between the north and the south.

Main street extends from the north to the south limits running along east side of public square. It is the dividing street between the east and west.

Merchant street is fourteen squares west of Main and extends from north to south limits of M. & M. addition.

Midway street is thirteen squares west of Main and extends from north to south limits of M. & M. addition.

Miller street is two squares north of Market and extends from L. E. & W. railroad to Marion.

Morgan street is four squares west of Main and extends from north to south limits.

Mulberry street is three squares east of Main and extends from north to south limits.

Ohio street is six squares south of Market and extends from Jersey to Williams and from Main to east limits.

Oak street is five squares west of Main and extends from north to south limits.

Perry street is one-half square north of Market and extends from Oak to east limits.

Polk street is three squares south of Tribolet.

Poplar street is two and one-half squares south of Market and extends fsom Marion to Liberty.

Railroad street is seven squares west of Main and extends from the intersection of Indiana on Washington diagonally northeast to city limits.

Ripley street is three and one-half squares south of Market and extends from Marion to Liberty.

Scott street is one square east of Main and extends from north to south limits.

Silver street is eight squares south of Market and extends from Marion to east limits.

South street is three squares south of Market and extends from east to west limits.

Spring street is eleven squares south of Market and extends from Main to east limits.

Townley street is nine squares south of Market and extends from Marion to east limits.

Tribolet street is first street in Tribolet & Dougherty's first addition.

Union street is eight squares west of Main and extends from north to south limits.

Wabash street is one square north of Market and extends from east to west limits.

Walmer street is eleven squares west of Main and extends from Washington to the north line of Tribolet & Dougherty's addition, from which place it continues as Dougherty street to the south limits.

Walnut street is one-half square south of Market and extends from Oak to east limits.

Washington street is one square south of Market and extends from east to west limits.

Washington Boulevard begins at west end of West Washington street and lies east of M., B. & E. Tr. Co.'s right of way in M. & M. addition.

Water street is one and one-half squares north of Market and extends from Oak to Main.

Wayne street is five squares east of Main and extends from north to south limits.

Western avenue is the continuation of Smoky Row pike, through M. & M. addition.

Wiley avenue is five squares south of Market and extends from Indiana to east limits.

Williams street is three squares west of Main and extends from north to south limits.
